

2027 R2S APPLICATION GUIDE

Pre-registration and regional competition format

ONE GLOBAL APPLICATION

TWO COMPETITION ROUTES

ONE INTERNATIONAL COMMUNITY

From 2027, Race 2 Space will connect R2S UK and R2S Korea through one application system, while each competition keeps a clear role and identity.

R2S UK

R2S KOREA

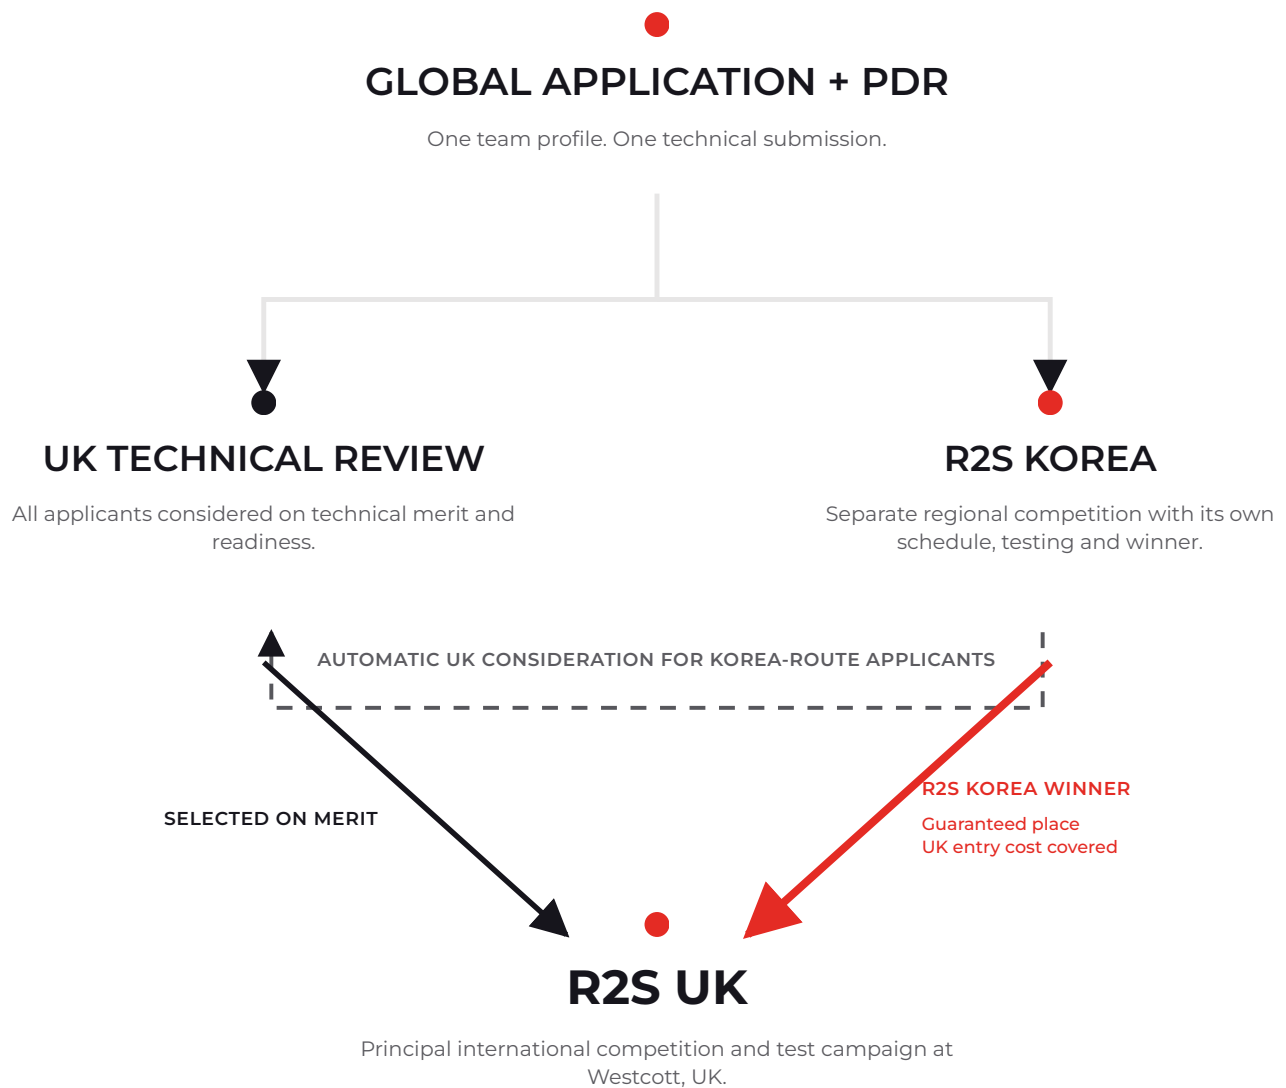

FOR NEW AND RETURNING UNIVERSITY TEAMS WORLDWIDE

| WORKING FRAMEWORK - FINAL 2027 RULES, DATES AND ELIGIBILITY WILL TAKE PRECEDENCE.

THE 2027 STRUCTURE

HOW R2S UK AND R2S KOREA CONNECT

A Korea-route team can reach R2S UK through the normal UK review or by winning R2S Korea.

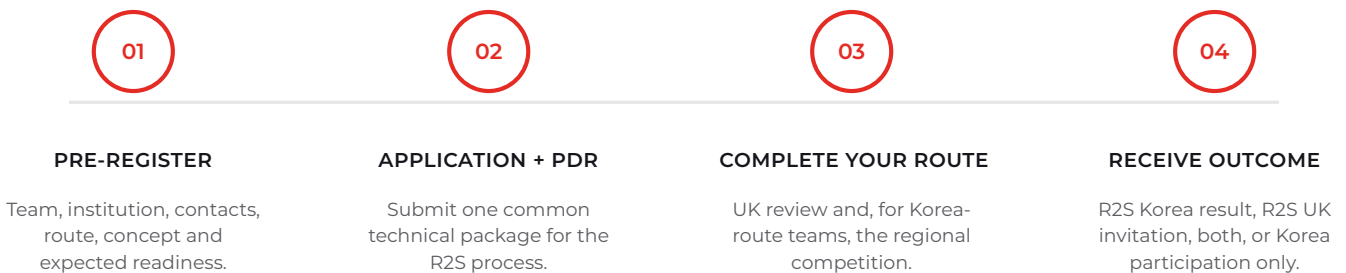

RESULT

The R2S Korea winner and any additional Korea teams selected through the UK review may attend R2S UK.

ONE APPLICATION SYSTEM

THE APPLICATION FLOW

KOREA-ROUTE OUTCOMES

R2SK FIRST PLACE	R2S Korea title + guaranteed R2S UK test place. R2S UK entry cost covered. Travel, freight, accommodation, visas and insurance are not included unless later confirmed.
SELECTED ON MERIT	May also attend R2S UK through the normal UK technical review. Participation costs are not automatically covered.
KOREA ONLY	Participates in R2S Korea but does not receive a UK invitation. The regional competition remains a complete competition in its own right.

- Pre-registration is non-binding and does not reserve a test slot. Full application, PDR, safety review and capacity remain decisive.

FOR PROSPECTIVE TEAMS

PREPARE FOR PRE-REGISTRATION

Keep the first submission short. The goal is to understand the team, route and expected readiness before the full application opens.

TEAM + ROUTE

- University and country
- Student lead and faculty adviser
- New or returning team
- R2S UK or R2S Korea route

TECHNICAL + READINESS

- High-level propulsion concept
- Current design maturity
- PDR, manufacturing and test-readiness plan
- Mentoring, logistics and funding constraints

INDICATIVE 2027 SEQUENCE

**FINAL 2027 RULES TAKE PRECEDENCE**

The published rulebook will confirm dates, geographic eligibility, fees, technical requirements and award terms.
